## GRAHAM MATHEW CELEBRATES AN INCREDIBLE 50 YEARS!

Graham Mathew is proud to announce its 50th Anniversary. Established in 1967, we are a deep-rooted Cambridge firm of Chartered Professional Accountants who service clients throughout the Region of Waterloo and beyond. In an era when companies come and go, we have achieved 5 decades of innovation and steady growth. The firm has forged many community, business and professional relationships that have spanned decades.

Our firm prides its success on our steadfast commitment to our founding principles, client service, embracing

new ideas, and technology. This was demonstrated by the birth of our sister company Parkwood Computer Services, Inc. in 1969.

For many years, our firm occupied the historic building at 211 Water St. across from Galt Collegiate. When we outgrew these premises we moved to the more contemporary office space located at 150 Pinebush Rd.

Our dynamic team of accountants work with privately-owned businesses, as well as organizations in the not-for-profit, municipal government, and mutual insurance sectors to provide

a wide range of public accounting and taxation services.

We focus on implementing tax efficient business plans for family oriented entrepreneurs often utilizing Family Trusts. We offer advice on intergenerational transfers of the family business and assist clients through the transition from the sale of their business to investing the proceeds in an investment holding company.

The partners and staff at Graham Mathew are conscious of the community in which we live and work and, as such, we are ardent supporters

of numerous local charities and not for profit and recreational organizations that improve and enrich the city we call home.

At Graham Mathew, we make it our mission to provide growth opportunities and long-lasting relationships with our clients, employees and our community. The same vision and drive that has been our inspiration for the past half a century is our motivation for the next chapter of our firm.

2017 will be a year of celebration and recognition of our clients, colleagues and employees, all who contributed to our success.

**in nature, adaptability is everything  
in business, adaptability is our thing**
